VOLVO V60, V70, V80, S60, S70, S80 & XC90 INSTRUMENT CLUSTER REPAIR (2001-2003) £120 The Volvo Instrument Cluster repair is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers and involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required for the Volvo. Your mileage reading will stay intact, so there is no need for mileage correction. Your Volvo Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one COMMON ISSUES Failing warning lights Flickering Cluster Complete power failure Volvo mileage correction (conditions apply) CIM LCD reading false. Background illumination failure. REMOVAL INSTRUCTIONS Firstly unclip the surround around the Instrument Cluster (pull it towards you) then unclip the top cover on the Steering Cowling (upwards) once plastics are removed undo 4 x t25 torq screws that hold the cluster in place. Pull the Cluster forward and remove the white plug on the back of the clock. REPAIR PROCEDURE 1. Remove the cluster using the instructions on the website 2. Fill out and print our job form on our web site. If you don't have a printer please write the information manually including your post code on the outside of the box for our reference. 3. Sign the form, cut off the address label and secure to the front of the box. 4. We recommend sending via Royal Mail Special Delivery UK 5. When we have received the cluster and have repaired it, we will call you for payment via telephone WARRANTY AND TURN AROUND We offer a Lifetime Warranty (T&C's Apply), usually with a 24 hour turn around by post. If you come to our workshop in Waterlooville (near Portsmouth) we are able to offer a friendly 40 minute fast track service.
