just arrived into us american import thats why the chrome looks amazing for a 1968 bike super rare cs1-180 twin high pipe with electric start and when we cleaned the points connected to a good battery it fire into life sounded great,it even though when pulling on the broken throttle cable,i don't think this bike could have done the amount of miles showing on the speedo,it runs and looks too good the fuel tank is like new inside.tyres are perished,rh switch gear missing,seat cover has holes in it but what an easy winter project and these are great bikes,i know i have one in my own collection.we have the nova proof of import tax paid and once moted dvla will register for £55 and it will be road tax free.we may be able to deliver email post code for a quote and pay by card ring 07885 498007.we have 50 seventies project bikes in stock including another cs1 which is slightly cheaper,25 bikes must be cleared before christmas so grab a bargain,treat yourself its christmas and you will only regret it when they have doubled in value in a few years.
