Multiyork Sofa in used condition

it's goldish/cream patterned colour but the true colour is best seen in the photo with the Multiyork lable in it

there is slight fading to the back of the sofa but hardly noticeable but if you have it against a wall then it will not be seen. Tried to take a photo as you can see in photo 2 but it's not that different

This is very clean with no marks of stains as in the photos does not make it look good

all covers come off for machine washing even though it states dry clean only

The seat cushions are foam and the back cushions are feather filled

only selling as it was sold as a set but only needed the arm chair
