

Lemet Waterheater 200 litre (655 GBP)

Location **Yorkshire and the Humber, North Yorkshire**
<https://www.freeadsz.co.uk/x-161410-z>

Lemet Waterheater 200 litre, The Lemet electric water heater is ideal for houses, campsites, marinas and offices. The wellinsulated Electric water heater from Lemet is equipped with a 2kW electric heater, but can also be supplied with a 4,5kW, 6kW or 9kW electric heater. The maximum rated temperature is 85 °C (185 °F). The thick insulation will optimally preserve the water temperature. The longlife magnesium anode heating element is highly durable and can be replaced if need be. The ceramic enamel wall was fired at a temperature of 850 °C making it heat resistant. All water heaters are supplied with a free of charge pressure safety valve that needs to be installed for the water heater to function safely. If you do not use this pressure safety valve your guarantee will be void. The longlife magnesium anode heating element is highly durable and can be replaced if need be. The ceramic enamel wall was fired at a temperature of 850 OC making it heat resistant. Technical Specifications: Waterheater 200 litre, Lemet Nominal capacity 200 Litre Direct heated Electric water heater Available in 3 colour versions: grey, red and, dark blue.
