Taps and fixing toilets, To all to homeowners and landlords,now you can turn off your mains water supply with the flick of a switch. Surestop valves Supplied and fitted,If thereâ€™s a plumbing emergency in your home or business â€“ most commonly a burst or broken pipe â€“ your first step is to locate your stopcock and twist it to turn off the water supply, minimising the risk of flooding and water damage that can cost a fortune in repairs.But stopcocks can be tricky thingsâ€¦Rarely used, they can become very stiff and hard to turn, especially for people who are elderly, or have a disabilityOften very old, they may not work properly â€“ but you wonâ€™t know that until an emergency arises and itâ€™s too lateThey may be hard to find â€“ lots of people donâ€™t know where their stopcock is (and many donâ€™t even know what it is!) inbox me or call,, 07910792848, Birmingham,.
