A very rare factory made pick up back SE5 with a brand new leather fitted interior including seats (black with red piping), carpets and door cards. She needs an engine (Around 200 pounds) but comes with gearbox and a new stainless steel exhaust. She sits on Wolfrace alloys with new tyres. She needs some Tlc but will command a price in the range of 7,500 with an engine fitted (which I can provide). I have driven her and she drives like a modern car and is also comfortable at 30 mph as she is at 70mph. She is a great car and needs someone to make her complete.
