These beautiful hand made cowboy boots are made by the Alberta Boot Company in Canada They are in superb condition & as you can see from the photos they have had very little wear. I bought them whilst on holiday in Canada for Line Dancing & have since packed it up so no longer need them.
 They cost at the time the equivalent of £200 & are a bargain at my asking price of £100
 There are a lot of cheap manufactured cowboy boots out there but these boots are hand made & built to last with quality leather throughout.
 I have checked out the Alberta boot company's website & the same boots are now \$385 look for
