

Tacho amp OilWater Temp Engine Instruments, 2quot52mm diam, 12v (15 GBP)

Location **South West, Isle Of Wight**
<https://www.freeadsz.co.uk/x-174996-z>

Two 12v engine monitoring instruments, both 2 inches/52mm diameter, both backlit. Neither of the gauges have been installed, both in original boxes with instructions. The water/oil temperature gauge is made by VDO, range 50 - 150 degrees C, but lacks a sender unit. As it has a steel bezel, I have coated it in satin black Hammerite; the body is plastic. Suitable sender units are available for around £10 inc postage on ebay. The other is an Auto Gauge tachometer for a 4,6,or 8 cylinder diesel engine, so not suitable for my 2-cyl marine diesel. (Selector switch at back for the number of cylinders.) It should be connected to the W terminal of the alternator. Both body and bezel are plastic. It comes with instructions and its own mounting pod for use if required. Asking £12 for the VDO temp gauge, and £5 for the Autogauge tacho. Buyer collects, or could be posted at.
