JVC Midi Stereo Unit with Radio and Cassette, CD Not Working. (5 GBP)

South West, Hampshire Location https://www.freeadsz.co.uk/x-193618-z

This is a JVC VXT1 unit, with separate speakers, nice and clean, but the CD player has a fault with the spin mechanism. The AM/FM radio and cassette player both work fine. Would make a nice workshop radio/cassette player for very little money. Asking low price of £5 ono because of fault.

Buyer.
