More versatile than a VAN. This is a very comfortable and economic estate car. 5 people with seats up or good van space when back seat down. Great driving comfort too better than a tinny old van. With Roof Bars you can easily add a Roof Rack or Roof Box.
 I used it for bulky items or items longer than the vehicle, eg ladders.
 I was getting between 50 and 65 mpg depending on usage checking fuel against distance travelled per fill. It has a dog net to keep the dog in the back section. When seats are down the rear capacity is quite large. I used it mostly for clearing my stuff at car boot sales every weekends. I made one trip to Europe. I put only a little over 3000 miles. The car generally is in good condition with a quite tidy interior. I only run cars in the summer thus the sale. Despite its large mileage, a friend did a computer diagnostic check as a favour and said the engine was all fine. Diesels are cheap to run and reliable during the winter. It's MOT run to March 2016. A good cheap car at only £695 ono. Come and have a.
