The Phenomenon Bruno Groening - on the tracks of the "Miracle Healer" - a special kind of documentary - enthusiastic viewers and healing reports. In early 1949, thousands of people streamed to Herford in Germany. In the autumn of the same year up to 30,000 people were drawn daily to the Traberhof – a horse stud farm - in Rosenheim - miserable masses of sick and suffering people. They had only one aim: Bruno Groening. For many he was their last hope. Beaten down by the war, given up on by doctors, those people had only one wish: to get well again, to be free from misery and pain. Could Bruno Groening help them? The unthinkable occurred - numerous sick people were healed - the lame could walk, the blind could see again. The film "The Phenomenon Bruno Groening" depicts the dramatic events of that time and follows the tracks of an unusual man. The film is the result of nine years thorough research; it brings the events of that time to our attention today and enables us to understand his teaching. Healings are happening today, even as they did when Bruno Groening was alive. These healings are evidence of the truth of his simple teaching. People are even healed of organic illness. Mrs A., a spectator: "I saw the film last year. At first I was worried about the length of the film and how long I would have to sit because I had been suffering from severe back pain for twenty-five years. After the film I went home without any pain. And now I have been without pain for many months".
