

Canon i9950 A3 Printer (10 GBP)

Location **South West, Dorset**
<https://www.freeadsz.co.uk/x-196732-z>

The printer has had moderate use but I think is in need of a new print head. Photographs print with colour banding. It has been out of use for some time and it appears ink clogging has occurred. Cleaning was unable to cure the problem. When printing properly superb images are possible. The low price reflects condition and repair costs. ;
