

35mm camera and equipment (50 GBP)

Location **East of England, Bedfordshire**
<https://www.freeadsz.co.uk/x-202298-z>

Praktica TL3 camera, Pentacon 35-70 (f2.8-4) zoom lens, Prinzflex 100-200 (f5.6) zoom lens. Fotomatic 70TFZA swivel, bounce, zoom head, automatic twin flash gun. Camera bag 330x200x200 mm (approx). Original instruction books for camera and flash, remote shutter release, air duster and colour filters for flash gun. I've checked the camera over and everything works, as does the flash gun. The batteries were removed from the camera and flash gun before they were stored, so there's no corrosion. I've fitted a battery to the camera to check the metering - it's OK. I've fitted batteries to the flash gun and it works OK. Any inspection.
