

Dense Second Hand Bricks

Location **West Midlands, West Midlands**
<https://www.freeadsz.co.uk/x-202440-z>

FREE: Approx. 400 bricks removed from an external building on a 1930's house. All bricks have been cleaned of mortar (some have exterior white paint on one edge) and stacked. Ideal for a Bar-B-Que, lawn edging (I used 500 for this purpose) and small building projects.

Some bricks stamped with 'Leamington Spa' brickworks (no longer exists) 98% bricks are solid and do not have frogs. The bricks are dense weighing in at approx. 4Kg EACH.

Buyer collects from Warwick, bring a barrow as they are stacked at the bottom of the garden (approx. 30 yds from front)
