

Pair of extendable Mama039s amp Papa039s wooden stair gates (15 GBP)

Location **London, London**

A pair of extendable wooden stair gates from Mama's & Papa's, wall mounted (note, only one shown on photo, but there are two!) We received the item with one of the lower fixings on one stair gate missing, which mean the lower part did not clip in. However my husband got this working with some 'clever' engineering! Other than that, all fixings are there and gates work really well. ;
