WHIRLPOOL UPRIGHT FREEZER. 3 drawer, 1 door upright freezer. Its a bit old but still works great. It is not in perfect condition so please look at pictures. As you can see in the photo the bottom drawer split at the top and is now held together by black masking tape. Isnt a problem at all. The main door handle broke and i lost it but you can just open it from the side, again, not a problem. There are a few scratches on it (pic 3, this is of the left side). The front is fairly clean tho. Has been defrosted for a month now and stored with door open. Reason for getting rid of is that a dont need a second freezer any more. Amanda 07742 244666 ;
