1998 Escort Van. Low, low mileage of only 103,000.
 It is cheap to run and super reliable.
 It's been well looked after. It has few dents to the body work but nothing major (see pics)
 Oil and oil filters changed 6 months ago.
 Bought when moved house to help ease the burden of seemingly endless trips to the tip and DIY stores!
 Liked it so much and was so much cheaper to run than my Seat Leon, I ended up using for daily commute for the last year and she never let me down.
 Straight through last MOT with a few advisories but again, nothing major (some minor rust and a rubber bushing starting to wear but not causing any problems)
 driver side electric window not working due to button fault on console.
 Super cheap as priced for quick sell. open to reasonable offers. Will even throw in phone holder and MP3 tape converter for stereo!
 have got LOADS of the old MOT certificates (have never gone through them but it is probably all of them!)
 Spare key.
 A great little van. You'll never win any drag races in her but if looked after, could go on forever.
 Please don't hesitate to ring, email or text me if you have any questions or would like more photo's or info or to arrange to.
