FIAT DUCATO 1 INSTRUMENT CLUSTER REPAIR (1999-2003)
£150

The Fiat Ducato 1 failure is quite a common fault. On this type of Odometer it is usually caused by internal components breaking down within the Instrument Cluster. The repair is carried out by fully qualified electronics engineers which involves stripping down the Instrument Cluster and replacing internal faulty components to rectify the problem. We do not offer "quick fix" we actually replace the faulty parts with new ones required. Your mileage reading will also stay intact, so there is no need for mileage correction.

Your Fiat Speedo can be repaired at a fraction of the cost compared with the price of purchasing a new one. **COMMON ISSUES**

Failing warning lights
Speedometer problems
Flickering cluster
Complete power failure
Pixels failing on screen

REPAIR PROCEDURE

1. Remove the cluster using the instructions on the website
2. Fill out and print our job form on our web site. If you don't have a printer please write the information including a photo of the cluster on the back of the box. If the box is for a friend or family member, cut out the address label and secure to the front of the box. We do not recommend sending by Royal Mail Special Delivery. We will have repaired your cluster and it will be repaired and returned to you via tele post.

WARRANTY AND TURN AROUND

We offer a Lifetime Warranty (T&C's Apply), usually with a 24 hour turn around by post.

If you come to our workshop in Waterlooville (near Portsmouth) we are able to offer a friendly 90 minute fast track service. (Appointment only)
