Black, 1 owner, This bike has had 1 owner and comes with Vince and Hines stage 1 kit. The rear seat is also included. The Harley-Davidson Dyna Street Bob is based on the ubiquitous Super Glide, and has a low seat, classic Fat Bob tank, wire wheels, Ape hangers and satin paint. Cool it is! The ride, thanks to half-decent suspension, is fairly flush. It has plenty of torque and good performance. It is a modern Harley motorcycle, so paint, build quality, robustness etc are a given to be amongst the best anywhere. Reliability is not an issue, after all this is a big, massively refined yet understressed motorcycle. For style per buck, the Harley-Davidson Dyna Street Bob is among the best of all Harley-Davidson motorcycles. It has sheer pose factory and crowd drawing ability and if you're into Harleys, that counts for a lot. The North West's finest family run motorcycle dealership, £8,250 p/x
