Very good quality GT Transeo 3 hybrid bike - in 'as new' and unmarked condition and perfect working order. Designed for general road use and limited 'off road'. It's stronger than a regular road bike but is not a full blown 'mountain bike'. Has puncture resistant tyres, strengthened wheels, sealed wheel hubs, disc brakes, front suspension that can be 'locked' and 'unlocked', Shimano gears and chainset (24 gears). Comes fitted with short mudguards, pannier frame with integral rear light, and toe clips. Also included: spare inner tube, puncture repair kit, and a set of 'allen keys' for making adjustments. Purchased new and ridden briefly on pavements only twice. Change of life means that sadly I have no reason to keep it. Has been stored always indoors. Frame size is 'large'. I'm 5ft 10ins, and as professionally set up it fits me perfectly. Would obviously suit someone taller as well. Delivery cost by courier would need to be added to the price. Purchaser may view and/ or collect in person. Seller may be able to deliver by individual arrangement, dependent on.
