

COLD FUSION HAIR EXTENSION MACHINE FOR SALE

Location **South West, Dorset**
<https://www.freeadsz.co.uk/x-219684-z>

COLD FUSION: Cold Fusion Technology is the new Ultrasonic Machine for the Application of Hair Extensions Exclusively produced . That makes use of the innovative cold technology, reducing the time of application as well as being more gentle to the hair of the client. Its new molding applicator shaped like a gun makes the process of the installation of the hair extensions quick and easy by avoiding to mold the keratin with your fingers, it's all in one easy step. It is designed to be used by right handed or left handed stylist and its ergonomic grip adjust very well to contour of your hand. Precision, effectiveness and speed are the best adjectives best used to describe this machine, it will help increase the amount of clientele to any stylist chair by reducing the amount it takes to do a full application.
