## Neurorubine Forte Lactab (Very strong vitamin B complex - B1 B6 B12) N20 UK

Location

Yorkshire and the Humber, North Humberside https://www.freeadsz.co.uk/x-232000-z

Neurorubine Forte Lactab (Vitamin B complex - B1 + B6 + B12) N20 EXP.DATE: 10.2018

Neurorubine Forte Lactab combines in high doses three vitamins which are indispensable in the nervous system.(Vitamins B1, B6, B12)

Composition: Each film-coated tablet contains: thiamine nitrate (vitamine B1) 200 mg, pyridoxine hydrochloride (vitamine B6) 50 mg, cyanocobalamine (vitamine B12) 1000 ?g, colour E127 (erythrosine) and other excipients.

Indications and Dosage: Adjuvant in neuritic pain (acute or chronic neuritis and polyneuritis); neuralgia; toxic damage of the nerve tissue (alcoholism, diabetic polyneuropathy, drug intoxication). 1-2 tab daily. Severe cases: At the beginning of treatment until pain subsides, 2 tab daily.

Contraindications: Hypersensitivity to vitamins B1, B6, B12 or excipients; psoriasis.

Precautions: Should not be used in children.

Pregnancy/Lactation:Only if potential benefit outweighs foetal risk.

Undesirable effects: Inhibited release of prolactin; reduced therapeutic effect of levodopa unless a decarboxylase inhibitor is given at the same time; increase in SGOT in the serum; acne; acne-like rash; sweating, feeling of weakness, globus symptoms.
