Whites TDI SL Metal Detector with 12" Coil

To hunt all day, you need a lightweight detector that still provides high performance. The TDI Pro Metal Detector has pulse induction power that provides unbeatable depth and sensitivity and is designed specifically for prospecting and identifying relics.

Special prospecting features make life easier, such full-control ground balance that filters out the iron mineralization of hot rocks, black sand, and other tough grounds.

This compact detector weighs only 3.5 pounds with its waterproof 12" Spider Search Coil, which offers deep detection depth. Other accessory coils are also available.

The rechargeable NIMH battery lasts up to 6 hours, and a backup AA battery back will power all-day exploration.

Highlights

- 3-Way Target Conductivity Selector
- Frequency Control
- Precision Ground Balance Control
- Pulse Delay Control

Bought this just 3 weeks ago, it has the rechargeable battery and the normal battery cassettes

I got this 2nd hand, but it came to me as new as it was never used before i had it.

I used this once last week in the mud and sand on the coast.

but i am selling this as i have been given a Deus for Xmas

Cost me £650 but are £995 New
