

Vauxhall Astra 2001 (200 GBP)

Location **South East, East Sussex**
<https://www.freeadsz.co.uk/x-234522-z>

In need of repair or could be used for parts. Non-runner at the moment due to very low revs, could possibly be linked to the throttle. Using up a lot of oil too. Motor on the back windscreen wiper has gone. Head liner is coming down-we have tried to stick it. Just over 100,000 miles on the clock although the display bulb/fuse has gone on this (99,354 miles at MOT in August). Has been a very reliable car for my mum and I since new. Body work in good condition (a few scratches on the bumper which can be seen in the photos) no rust. Tyres are in good condition (front ones approximately 1 year old). New flasher unit fitted in December. Advisory notes from MOT at the end of August: rear number plate in poor condition, head lining falling down, eml light.
