

Roberts digital dab fmam vintage radio (30 GBP)

Location **South East, West Sussex**

A vintage radio with digital screen DAB and fm/am. The handle has melted from sitting on the window and I have it but have removed it. I still have it but it's sticky. The radio gives great sound with its digital display. You can open the back up so if you ever want to hid something it's a great hiding place. Some of the ruby covering has come off the main body. Please look at the photos. these are £50 on eBay second hand this works fine just looks extra
