

Burisch Synergy GT 250 Electric Bicycle e-bike (550 GBP)

Location **South East, Surrey**
<https://www.freeadsz.co.uk/x-249290-z>

Bought the bike in 2015, not used it that much so its all original, I have serviced the bike regularly and kept it indoors, its got a 250 watt synergy back hub motor, which is very quiet and efficient, but powerful enough to assist you up pretty much any steep hill. It has pedal assist as well as a twist grip throttle. It has an upgraded controller that allows the bike to reach about 25mph. This can also be reconnected to restrict it to the 15mph legal limit. Tectro Disc Brakes with motor cut-out on levers. Suntour fully adjustable front forks with lock out, that soak up the bumps well. Shimano Tourney Chainset and 7 speed cassette. It has taken me from Guildford to Ewhurst and back a few times, which is a round trip of about 26 miles, a lot of which was on a bridle path. It only weighs about 22 kilos, the frame is a large size, and its finished in a diamond white colour paint. There is a few minor scratches here and there on the frame, mainly top crossbar where its been locked up against a bike rail. It really is a good touring bike with very low running costs, and its got a full life ahead of it still. I can deliver this item to you locally, at cost of fuel if you contact me, or you can come to Guildford and test it, then decide if you want to buy it. Once sold its sold as seen and I will not be responsible for any losses incurred through negligence or any other reason. Don't be put off though its a great modern lightweight E-Bike with lithium battery (11Ah 36 volt), comes with its original charger, and its been very reliable. As long as its looked after will serve someone well to commute with or just have fun getting fit the easy way! £550 no offers call 07825
