Vw Transporter 2.5 tdi 130bhp Swb Black.

Long not sept 2016. This van has one owner since 6 months old and has driven up and down the motorway delivering supplies to funeral parlours!

It has spaceship miles of 312k but seriously looks and drives like a helluva lot less! Lots of money spent, new turbo recently, vacuum pump, excellent Tyres, quality face off stereo, no bulkhead, sld, rear barn doors. Central remote locking working fine but a light on the dash says door open. (Sticky switch) 6 speed gearbox. Starts on the button, lots of power and great mpg.

Bad bits..

Ok, 9 years old and although the body is excellent for the miles, there are a couple of small knocks and dings (pictured), but nothing serious. The only thing in the next year to watch for would be the clutch as its gripping quite low. First gear sometimes takes a wee push to engage but she still drives fine..no crunching or other. My mechanic said £400 to replace when needed but it might carry on fine for another year or so, so I haven't bothered. This is reflected in the price as I've seen non runners with no engine for the same money.! You're welcome to view/test drive most days with notice. I'm looking for a kombi with seats in back which I max p/X call Mark on 07747701902

Grab a!
