

CHEMISTRY RELATED TEXT BOOKS, MANY ON POLYMER MATERIALS (35 GBP)

Location **South East, West Sussex**

Large number of text books (about 36) from 1960s to 1980s, mostly covering the chemistry and technology of polymer materials. I'm parting with them because of my recent retirement and the need for storage space. The books are nearly all in average to good condition; one or two are in a fair state. If interested, I can send a list of all the titles by e-mail (e-mail address required). Collection by buyer.
