http://www.canaryelectronics.com/index.php?id_product=115&controller=product&id_lang=1 Versatile and packed with easy to use features, the stylish silver Olympus OM-D E-M5 Mark II Compact System Camera with M.ZUIKO 12-50 mm f/3.5-6.3 Zoom Lens offers a compact design for the travelling photographer.

Perfect photography

Boasting a compact and lightweight body, this Olympus camera still manages to pack in plenty of power and features that will help you to develop your imaging skills and creativity.

The large 16.1 megapixel and highly sensitive Live MOS sensor in the Olympus OM-D EM5 Mark II delivers incredible image quality that will inspire a portfolio of perfect photography.

The TruePic VII image processor utilises the sensor for low-noise, vibrant and detailed pictures with stunning colour reproduction. A built-in 5-axis image stabilisation system effectively captures stills in sharp, blur-free quality.

Improved ergonomics

Sitting comfortably in the hand, the EM5 Mark II has been carefully designed to make using it as intuitive as possible, with easily accessed controls and a straight forward interface.

The vari-angle touch screen gives you complete control over almost all of the camera's settings, just by swiping and tapping your way to the most beautiful images, according to your needs.

Shoot from different angles with a vari-angle screen that helps you keep everything framed where you want it. Be able to adjust the monitor help you to shoot at arm's length while still keeping your eye on the subject for more interesting and creative angles that will add new dimensions to your images.

Camera creativity

The EM5 Mark II has an ultra-fast autofocus system that allows you to snap fast-moving subjects in
