

Harrison M250 Lathe Good Condition 3phase 415V (1,750 GBP)

Location **North, Lancashire**
<https://www.freeadsz.co.uk/x-257066-z>

Originally purchased in late 1990. It has been in an educational workshop and has had very little use. Most of the tools have never been used. 9 of the yellow NOVA turning tools are unused and still have the protective rubber on the tip. It comes with various chucks, centre points (some unused), and various attachments, please see images. I am not sure what they are all for. It also has the original lamp. There is also another set of gears, which are unused (just a bit dusty). The machine has been hardly used over its lifetime and is in perfect working.
