White, 3 owners, This one comes with ABS, a tall screen, Titanium akrapovic exhausts with inserts, domino throttle cam, black carbon look wrapped exhaust guards, handguards, soft luggage, bash plate, engine bars, scottoiler and ergo seat. The KTM 990 SMT manages to combine all the mental fun of a supermoto with the comfort, practicality and ability to cover miles of an adventure bike. It's being hailed as the all-rounder King offering all things to all riders. Of more interest to more people is the fact that it's bloody good fun and way faster than you'd think for a 115bhp V-twin. KTM has taken the 990 Supermoto WP suspension but modified the internals of the forks to take out some travel, so the SMT is a bit more composed on the road. The quality of the suspension is first rate. The light steering never gets alarming and the payback is the way the SMT soaks up scabby British roads like it was fine-tuned here rather than Austria. There's a nicely judged throttle response that makes low speed work easy. Turn up the speed and the big 999cc lump keeps on revving. Enough power for a 140mph top speed. The quality of the components on-board means a high overall standard. Comprehensive instruments, handguards, luggage rack, tall screen, race-spec Brembo brakes, top-line WP suspension, Marchesini wheels, the list goes on. The North West's finest family run motorcycle dealership, £6,995 p/x
