

MSI WindTop All-in-One Touchscreen PC AE1921 (200 GBP)

Sleek & Trendy—Elegant White

The Wind Top AE1921 incorporates all of the computer's functions into an elegant white casing as well as features an extended mobility, anti-glare screen frame design that makes for a pleasant viewing experience. In addition to being sleek and modern looking, it is also a sleek home accessory that decorates your house with its stylish appearance.

LED All-in-One PC

MSI's exclusive leading adoption of LED panel for All-in-One PCs makes it possible to create ultra-thin PCs design, while also saving costs to benefit from LED's better low energy consumption. The LED panel provides energy savings of approximately 30% compared to conventional LCD panels. Comparing this advantage to the PC's unique energy-saving technology, the Wind Top AE1921 LED All-in-One PC can provide an average savings of near 30% compared to a conventional desktop PC containing compact with a standard 200W monitor PC.

High Performance, Low Consumption, Ultra Quiet

5. All-New Intel Atom™ Processor
The latest Intel Atom™ microprocessor presents the ultimate microarchitecture with a specialized mobile configuration and low power consumption design that is the most important feature of all in the computer.

Ultra Low Power Consumption

Thanks to the computer technology, it has the ability to power off. Since the AE1921 can save power and improve its power-on time, it can save 200W per hour.
Actual performance results may vary according to different operating circumstances and settings.

Wind Top processor has full operating capabilities with the outstanding performance of the new generation 3200+ cores, and 100% high in terms of battery life, low power consumption, and the overall, and with the efficiency and convenience of APU.

Location **East of England, Cambridgeshire**
