Blue Ray 5 Disc Set Unopened in original sealed packaging Narrated by David Attenborough.. From the team behind the multi-winning Blue Planet comes this epic series celebrating the Earth as never before. Embracing the world's incredible landscapes and fascinating wildlife, Planet Earth takes the definitive look at the diversity of our planet. Four years in the making, with a budget of unprecedented proportions, Planet Earth has stretched the boundaries of natural history television. High definition photography, revolutionary ultra-high speed cameras and detailed images from the air enabled the series to capture the most amazing footage ever seen. This stunning television experience combines rare action, unimaginable scale, impossible locations and intimate moments with our planet's best-loved, wildest and most elusive creatures. From the highest mountains to the deepest rivers, this blockbuster series takes you on an unforgettable journey through the challenging seasons and the daily struggle for survival in Earths most extreme habitats. Prepare to be overwhelmed by the beauty of Planet Earth. Including: Natural World: Desert Lions & Snow Leopards

The BBC's flagship natural history series Natural World has consistently produced amazing wildlife stories with breathtaking imagery. These two gems from the series feature incredible footage of these rare, beautiful and magnificent big cats. "Expect everything from underwater elephants to mountains of guano and a snow leopard in attack mode? Pure Class"-- The Guardian Review Not only is Planet Earth one of the most jaw-dropping, ambitious, nature documentaries the BBC has ever produced, it's now taken on another role: as a superb demonstration disc for the strength of and Blu-ray. Spread over a good ten hours, the series charts life and nature in dozens upon dozens of differing locations around the earth. Diligently and warmly narrated by Sir David Attenborough, Planet Earth calmly goes close in on its
