Hi,

Selling my fish tank with my two goldfish and 6 minnows included. It also comes with a separate plastic tank to keep fish in when cleaning or transporting, water purification, flakes and pellets for feeding and all the fake plants and ornaments. It cost me around £90 for the set up and fish. Size of main tank: 40cm wide 28cm tall and 20cm deep Plastic Carrier:

20cm wide 16cm tall and 12cm deep I am selling due to the fact I will soon be moving away and I can not take them with me. I have had them since October now and have managed to build up a good and steady ecosystem within the tank (often why fish die so quickly is a lack of this) so they will be a good family pet for years to come. Any questions just get in contact
