Picture Perfect 3D

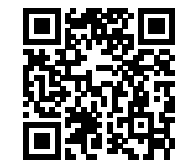

Share the fun and excitement of 3D with your family and friends on LGs next generation 3D TV - the LG 47LW450U Cinema 3D LED TV takes you even closer to the action and recreates the true cinema experience in the comfort of your living room. Developed with advanced passive 3D technology, a similar 3D technology employed in cinemas, the LG 47LW450U is helping define the future of 3D viewing. The LG 47LW450U Cinema 3D TV is the easier and more affordable way to enjoy 3D TV with family and friends. Not only can you enjoy brighter and clearer images in stunning Full HD 3D compared with conventional 3D TVs, the 47LW450U boasts an ultra wide viewing angle, allowing you to get the same stunning immersive viewing experience wherever you choose to sit. The lightweight, polarized 3D glasses let you enjoy high quality, flicker free images without ever having to be charged. The low cost price of the glasses also makes it easier to buy as many pairs as needed for friends and family. What's more, The

LG 47LW450U LED TV offers you the smoothest, most realistic picture, courtesy of the Motion Clarity Processor and Full HD 1080p LED panel. A real find for those who like high-s...

The 47LW450U features an integrated Freeview tuner allowing you to enjoy a wide selection of free digital and radio channels including a variety of the most popular broadcasts such as BBC Three and HD with our monthly subscription or contract to sign. To help you save money and the planet, the 47LW450U features LG's latest LED backlighting technology which uses 30% less energy than standard TV units as well as offering more precise control of colour, contrast and clarity. What's more, the built-in intelligent sensor monitor the lighting levels of your environment and automatically optimises the picture accordingly thus reducing power consumption by up to 69%.
