MCN said "After years of gentle evolution Suzuki has gone to town on its 2011 GSX-R750. Weighing in at 190kg, fully-fueled and ready to go, it's a massive 8kg lighter than the old model, giving the 148bhp GSX-R750 a mouth-watering power-to-weight ratio." The 2011 GSXR750 truly was an amazing machine at launch and still is today. The big piston forks and Brembo calipers really let you ride with confidence, whether on road for fun or pushing it on the track. This particular machine has had 2 owners from new. The first bought it new from Johns on Romford in 2012. He owned it for just over a year before selling it to us. We sold it to its second owner in 2013, during this time we serviced the bike twice, keeping the dealer history up to date. It has now only covered 5766 miles. We will be servicing it again for the new owner as well as providing 12 months mot. The bike is largely standard with only sensible modifications carried out; which include fitting an R&G tail tidy, frame protectors and rear bobbins and a genuine Suzuki GSXR tank pad. The front tyre has just been replaced, the rear has plenty of life, so no expense there for a while. We check all our bikes out before they come in, ensuring they meet our high standard. Our workshop staff each have over 35 years' experience working on motorcycles, so rest assured it will be prepared to the highest standard in line with Suzuki's servicing schedule. This bike comes with the original fully stamped service book, both original keys including the plastic sleeve on the spare, all original owners' handbooks, previous service receipts and a clean Experian/HPI provenance check certificate. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £6995
