Sexual maturity happens sometime around their 5th to 8th year of life. Their lifespan is anywhere between 50 and 80 years, so be prepared for a lifetime with your bird.

Selling for friend as he has moved out of here now.

Approximately 2 &6mnt old Says hello hi mum etc and learning as going along.

I have started make him listen to Allah Hu Naat and you can see him mimac moving mouth so hopefully with the right training he will get to start saying it aswell Inshallah ,obviously what ever you want it to say you will have to train him towards that and he will pick up.

In Excellent health

Was tame but obviously it will need few days for it to adjust with new owner and surroundings.
