This is an absolutely superb example of Yamaha's awesome R1. It's in the best colour of Yamaha Blue with white graphics which really compliment the black frame, swing arm and engine perfectly. To further enhance this already visually stimulating machine it has gold forks, gold powder coated wheels and gold anodised "Titax" CNC adjustable levers plus a Zero Gravity tinted airflow screen. To make it sound as good as it looks "Akropovic" Sp Series carbon oval cans have been fitted, they are e marked and are road legal when the supplied baffles are fitted. As you would expect with such a pampered machine it has a full service history documented in the service book along with the owners manual, tool kit and three keys. For added peace of mind it has just been fitted with a Meta M357TV-2 alarm/immobiliser which comes with the certificate, code card, instructions and 2 key fobs as well as the balance of the 2 year warranty. Motorcycle News gave this model an overall rating of 5 Stars! deservedly so when you look at the great features it has as standard, six piston front calipers, torque inducing variable intake system, slipper clutch, fly by wire throttle, new frame, swing arm and suspension plus new found mid-range drive thanks to a new valve set up that installs some of the "Badboy" engine manners the original R1 was famed for. As with all our bikes it is of course HPI clear and will be fully prepared by our workshop prior to collection. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £6195
