I hold a BA with First Class Honours in Philosophy. I received numerous High Distinctions for my essay writing and in 2013, I was awarded the philosophy department's prize for best essay in senior political philosophy. I am experienced in writing essays in Business/HR/Education/Psychology/Arts. I can guarantee you an essay that is grammatically perfect with a high degree of verbal fluency. It will be correctly referenced and the ideas logically developed. I will endeavor to write you a good essay, rather than one that is merely passable. If you are interested, send me a copy of the assignment with your expected deadline and any other relevant material, and I'll get back to you with a quote. We can go from there. I can also proofread and edit your essays for the following: + Grammar and punctuation + Written expression and fluency + Structure and the logical development of ideas. I'm also open to helping you with your work in other ways you might need -- just send me an email with the details. ;
