

# Are you a startup entrepreneur We build successful software for you

Location **North, Merseyside**  
<https://www.freeadsz.co.uk/x-278419-z>

IT Enterprise is a UK based software solutions provider. We build bespoke software for startups and enterprises.

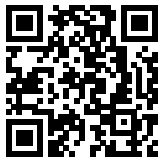

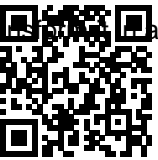

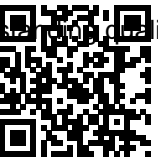

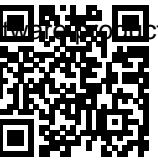

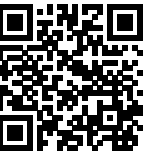

As a startup entrepreneur you are buzzing full of ideas, your creative mind is thinking about the next big thing that could create a great product or service that truly brings value to your customers.

Your hands start sweating, your heart rate is beating 10 times faster than normal as you know you are on a winner. You know and you have that gut feeling that it will be successful. You feel like an excited newborn child once again.

But just minutes later .... Your mind starts wandering and you become pragmatic and start asking yourself the following questions:

Who will develop this? Who will build this? Who do I need? What skills do they need to have? How big does my team have to be? How will I manage this? What tools do I need? What is the best way to conduct interviews? Where do I find those people? Do I hire freelancers or full time skilled IT people? Which programming language should I use? Java? PHP? Where do I store my data? Where do I host my product?

This is where IT Enterprise will help you building your dreams.
