APPLE IPAD PRO (latest model) 128GB. SPACE GRAY. I have for sale an iPad pro. This is the latest iPad model from Apple and the top of the range one with the maximum memory and is both wifi and cellular enabled. The iPad is in brand new condition and is less than a month old. It was purchased at the beginning of the month by my partner for my birthday. I literally turned it on had a quick 5 minute play with it, but haven't used it since. It is wasted on me it has such great capabilities and features but when it comes to technology I'm useless! Having my iPhone already I can't see it getting used much. My partner also bought a superior protection case which is compatible with Apple smart keyboard. This means there is no need to remove the case to attach the keyboard. The case also has a holder to house the Apple pencil. This is a really smart case which cost him £66. The iPad cost him £900 which you can check on the Apple uk store. If you go online to the Apple Store there are a couple of videos on there that show the features and capabilities of the iPad pro. It is the most powerful iOS yet. Any questions please ask. It will come in the original box as new with all the original contents. This is the perfect opportunity to own one of these at much cheaper than the retail price. I have reduced the price a lot already for the fact the box has been opened. After only using it once for 5 minutes, it is basically brand new! In addition to this it has over 11 months warranty left on it aswell for complete piece of mind. No time wasters please or offers of swaps. Collection in person only due to the high value of the item I will not post.
