2000 BMW 316 manual saloon in silver. 126k miles with MOT to October 2016. It's a 2.0 litre. Black alloys and a nice sounding cat back. Stereo but poorly fitted and cuts out sometimes. Climate control but doesn't work, however blower works so warms up in winter and clears windscreen. Marks around body all from before I got it. Electric windows front and fog lights all round. I swapped my vitara for it and was going to try and swap it for a bigger 3 series, but money situation means I need something smaller and more economical now. Test drives more than welcome or I can take you out for a drive. Looking to swap for smaller car or a scooter minimum 125cc. Would also sell for £.
