Here I have over 340 one penny coins for sale, from 1860-1967 from Queen Victoria to Queen Elizabeth II, 90% in great condition and a fare few that are worn out from the years they hold. This is perfect for someone who collects coins or just getting started and could also be great for decoration uses. The coins come with a metal coin case to store in, I also have the keys for the case to lock it up for safe keeping. It's sad to see these coins go but I have too many of.
