Do not have a time for repair? Tired from the "Artex"? Interested in something new than traditional plasterboard or suspended ceiling? Looking for something at a reasonable cost? Try a stretch ceiling!!!

"Right Ceiling For You" will help you create a unique style in your premises. The texture of stretch ceiling looks like a solid ceiling with flat and smooth surface.

Advantages over the traditional ceilings are:

- stretch ceilings do not fade;
- the do not crack;
- they are waterproof, damp proof and fireproof, according to the EU standards;
- the installation's time is about 5 hours (based on 20 sq m);
- stretch ceilings suit for any residential or commercial property (house, flat, office, exhibition, restaurant, swimming pool and so on);
- ability to create a one- or multi- levels construction, straight and curved shapes, backlights, illumination, LED strip lighting on the perimeter and evan make a stretched wall; -The time between measurement and installation approximately takes no more than 7-10 business days. It gives us an undoubted advantage in comparison with other building companies. Disadvantages are: - All dirty works must be finished before our engineer come into your premise. - The exact measure is required. For us is important every inch. Just image! Starry sky, mirrow gloss surface, your favourite image and translucent ceiling. This is not a complete list of work that our company can create.
