

## **Grey and white mini lop Rabbit (45 GBP)**

Location London, London https://www.freeadsz.co.uk/x-293291-z

unusual split magpie colour mini lop buck. He is very friendly and would make a good family pet, he is 6 months old so could be neutered now and paired with a doe. He is currently priced at £45 but could be neutered first and then would be £100. from an average price of what vets charge for this, in majority of cases this will save you time and money. comes with changeover food, advice sheet and continued advice should you need it. Thank
