Integrative Molecular Medicine (IMM) is a peer-reviewed, online open access journal dedicated to a new research discipline at the interface between clinical research and basic biology. IMM provides a new platform for all researchers, scientists, scholars, students to publish their research work and update the latest research information. Integrative Molecular Medicine publishes research articles as full-length research papers and short reports. In addition, the journal publishes editorials and review articles in innovative formats that target a broad and non-specialized.
