

Ford Mondeo 2004 TDCI ALLOYS 55 MPG (555 GBP)

Location **Yorkshire and the Humber, South Yorkshire**
<https://www.freeadsz.co.uk/x-299118-z>

2004 TDCI MOT till 9/2016 runs very well and starts on the button, idles nice, quietly and smoothly and drives perfectly with no knocks or bangs. Everything works . The engine and 5 speed gearbox run like a clock!. The main bulk of the miles has been all motorway (better for the car as it puts less strain). benefit from a service history had a new Dual mass flywheel fitted. Whilst this is being done it is best practice to replace the clutch plates/assembly alloys good tyres 07457 161
