

MSI WindTop All-in-One Touchscreen PC AE1921 (175 GBP)

Sleek & Trendy—Elegant White

The Wind Top AE1921 incorporates all of the computer's functions into an elegant white casing as well as features an extended mobility, anti-glare screen frame design and made for a pleasant user interface in addition to being sleek and compact. It is the ideal home accessory that occupies your house with no clutter anywhere.

LED All-in-One PC

MSI's exclusive leading adoption of LED panel for All-in-One PCs makes it possible to create ultra slim PCs design, while also saving costs to benefit from LED's better low energy consumption. The LED panel provides energy savings of approximately 30% compared to conventional LCD panels. Comparing this advantage to the PC's unique energy-saving technology, the WindTop AE1921 LED All-in-One PC can provide an average savings of over 30% compared to a conventional desktop PC containing compact with a standard 200W average PC.

High Performance, Low Consumption, Ultra Quiet

5.38 Billion Intel Atom™ Processor
The latest Intel Atom™ microprocessor provides the ultimate microarchitecture with a specialized mobile configuration and low power consumption design that is the most important feature of all other computers.

Ultra Low Power Consumption

Thanks to the computer technology, it has the ability to green the earth. The AE1921 can save power and improve its green design measures and 300 hours of use per year.
Actual performance results may vary according to different operating circumstances and settings.

Wind Top PC processor also has full operating capabilities with the outstanding performance of the new generation 3200 memory and 800 MHz high in-house frequency, you can wireless surf the internet, and enjoy the efficiency and convenience of WLAN.
