This bike is absolutely stunning to view. It is as good as you could possibly ask for. It is a 1 owner bike with a full service history including a recent valve service, both original keys and tool kit. You really can't ask for more from a used bike. It is complete with the pillion pad and seat cowl as well as a pair of black Micron decat end cans which really fit well with the black and white colour scheme. These are road legal when the supplied baffles are fitted. The original number plate bracket has been replaced with a much tidier R+G tail tidy. The side frame rails are protected by carbon fibre covers which look perfect, contrasting against the white fairing panels. For added riding comfort a genuine Suzuki tinted airflow screen has been fitted. Security has been improved with the addition of a Datatool S4 alarm immobiliser system, this is Thatcham cat 1 approved. As with all our bikes it is of course HPI clear and will be fully prepared by our workshop prior to collection. Part exchanges are very welcome as we are always looking for used bikes, we are also happy to settle or arrange finance and trade up or down. £6295
