Hyundai electric start self propelled lawnmower, 20quot cut (325 GBP)

Location North, Cheshire https://www.freeadsz.co.uk/x-316881-z

I bought this lawnmower on 28th May 2015 to replace my recoil start mower, as I suffer with arthritis in my right hand and pulling the cable start on the old mower was very painful. When it arrived, I was amazed at how big it was and as I only have small lawns, it is really not suitable for my garden, Essentially it is for large gardens or professional use. I used it from June to November last year but find it awkward on small lawns and intend to replace it with an electric mower. It has had its 5 hour oil change as specified by the manufacturer and is in immaculate condition, still under a 2 year manufacturer's warranty until May 2017. The asking price represents a 25% discount on the new price. The original invoice comes with the mower. The following are the major feature of the mower:

Electric start: Provides stress free starting.20" wide cut

Self-propelled: Fitted with a 3-speed gearbox, 6hp 4 stroke engine. Self recharging battery as you mow. Four cutting methods: cut and collect, cut and drop, cut and mulch & cut and side-discharge Seven-stage centralised cutting height adjuster: no need to adjust each wheel individually 70L polyester grass catcher w/ hard lid: For convenient collection and disposal of your cuttings.

Soft grip handle: Providing a comfortable cutting
